DOWNER KEROSENE OIL COMPANY.

Office, No. 108 Water Street, Boston.

TO CONSUMERS OF OIL

CAUTION.

It having come to our knowledge that many dealers throughout New England, are in the habit of buying small quantities of our Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a REWARD OF 100 DOLLARS for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other Oil than our own oil. The "**Downer Kerosene Oil**" has been frequently tested and analyzed by Dr. A. A. Hayes, State Assayer, and in a communication to us, dated July 5, 1861, he says: "The term Kerosene is used by the **Downer Oil Company**, applies to the highest grade of Oil only, which, our trials show, does not inflame below about 120 degrees Fahrenheit, and carries the assurance of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

A WISH.

I ask not that my bed of death
From bands of greedy heirs be free;
For these besiege the latest breath
Of fortune's favored sons, not me.

I ask not each kind soul to keep
Tearless, when of my death he hears;
Let those who will, if any, weep!
There are worse plagues on earth than tears.

I ask but that my death may find
The freedom to my life denied;
Ask but the folly of mankind,
Then, then at last, to quit my side.

Spare me the whispering, crowded room,
The friends who come, and gape, and go;
The ceremonious air of gloom,—
All, that makes death a hideous show!

Nor bring, to see me cease to live,
Some doctor full of phrase and fame,
To shake his sapient head and give
The ill he cannot cure, a name.

Nor fetch, to take the accustomed toll
Of the poor sinner bound for death,
His brother doctor of the soul,
To canvass with official breath.

The future and its viewless things,—
That undiscovered mystery
Which one who feels death's winnowing wings
Must needs read clearer, sure, than he!

Bring none of these! but let me be,
While all around in silence lies,
Moved to the window near, and see
Once more before my dying eyes.

Bathed in the sacred dews of morn,
The wide aerial landscape spread,—
The world which was ere I was born,
The world which lasts when I am dead;

Which never was the friend of one,
Nor promised love it could not give,
But lit for all its generous sun,
And lived itself, and made us live.

There let me gaze, till I become
In soul with what I gaze on wed!
To feel the universe my home;
To have before my mind—instead

Of the sick-room, the mortal strife,
The turmoil for a little breath—
The pure eternal course of life,
No human combatings with death.

Thus feeling, gazing, let me grow
Composed, refreshed, ennobled, clear;
Then willing let my spirit go
To work or wait elsewhere or here!

A school mistress, while taking down the names and ages of her pupils, and the names of their parents, at the beginning of the term, asked one of the little fellows, "What's your father's name?" "Oh, you needn't take down his name, he's too old to go to school to a woman," was the innocent reply.

"May I enquire where the Police court is?"
"Certainly, sir."
"Then, where is it?"
"I haven't the slightest idea."

NEWPORT DAILY NEWS,

WEDNESDAY, September 4, 1867.

THE NEW ENGLAND FAIR.

The great Fair opened under very favorable circumstances at Narragansett Park, near Providence, yesterday. The weather was beautiful and the attendance as had been anticipated, very large. Hon. Wm. Sprague gave the opening address of welcome in a neat and appropriate speech, which was responded to by Dr. Geo. B. Loring the President of the Society, after which the business of the occasion was transacted in the usual manner.

The number of entries for exhibition is unprecedentedly large. The best stock growers of the country are present with their herds, while the horse fanciers swarm on every side. The floral exhibition is very fine and very large, including many varieties of new and rare plants and flowers both from the open air and the green house. An Art exhibition which is given at one of the public halls contains paintings and various works of art of great merit. Some of these are from the best painters of ancient or modern times. Taken altogether this exhibition bids fair to surpass in interest anything ever before held in New England, and speaks well for the industrial interests of the country.

Greece.

A recent cable dispatch mentions the arrival of the King of Greece in London. Probably the object of his visit is to enlist the intervention of the Government in behalf of Crete. Popular sentiment in England has long protested against the indifference of "the powers that be" in regard to the barbaric outrages that disgrace Civilization and those exercised against a brave people struggling for freedom. Judging by the sarcastic comments of the London press on the Sultan's visit, public opinion in Britain, is sound and humane on this subject; and the latest intelligence seems to indicate that Christian and national sympathy in Europe, will soon make itself effectually felt in the East. What part our country will take in the future, as regards the Oriental question is, of course, a matter of conjecture; but in relation to the wrongs and privations of the Cretans, Boston and New York have emphatically pronounced their feelings. We hope Newport will add her influence and contribution in the same direction, by making the amateur Concert to be given to-morrow evening, a complete success. It is a pleasant coincidence that the Minister of Greece to the United States, (the first we believe ever appointed), his Excellency A. R. Rangabe, is now in the city, stopping at at the Ocean House.

A Southern View.—The Richmond *Whig* seems to take a correct view of matters at Washington and the probable effects of the controversy now going on between Mr. Johnson and Congress. It says: "We have long been satisfied that the disagreement between the President and Congress, which has been so disastrous to himself, has been much more calamitous to us, and that the longer it continues and the more embittered it becomes, the greater will be our burdens and sufferings." The *Whig* speaks of the recent acts of Johnson as a display of apparent courage which can by no possibility amount to anything. Congress is not in session, and for a while he will have everything his own way. But when that body re-assembles, what then? "This is a question," says the *Whig*, "in which the southern people are deeply interested. We cannot reasonably expect that, after having taken such high ground, that body will back down. No; it will probably adopt more energetic and decisive measures against him than those hitherto adopted.—We have too much at stake to place ourselves at the President's back and enter upon a war against Congress and the dominant party. We should not suffer ourselves to be beguiled as we were before. It is said that a burned child dreads the fire. We were so frightfully burned in our first essay as the President's backers that we should be cautious now. The truth is, that we can render no assistance in such a contest. Let us keep out of it."

An Abyssinian Widower. The Emperor of Abyssinia is a widower and his name is Theodore. He is, according to the belief of his loving subjects and the traditions of the Empire, a lineal descendent of King Solomon and the Queen of Sheba. His salary is $300 a year, and he spends his leisure hours, after affairs of State are concluded, in making parasols. King Theodore being a widower, and hearing that the Prince Consort of Great Britian had departed this life, made application for the hand of Queen Victoria, through the English Consul at his Court. Of course this application was refused, whereupon the indignant King, showing that Abyssinia has no fury like a Theodore scorned, clapped the English Consul and several other English people, male and female, in jail. This was three years ago, and ever since the British government have been trying to extricate these victims, who meantime have been subjected to all sorts of indignities, cruelties, privations, and even tortures. The reason why war was not openly declared was that Great Britain dreaded the expenses, and moreover, it was well known that at the first whisper of war the Consul and his fellow captives would be slain, while Theodore would retreat to the interior of his kingdom, and so avoid the avenging Briton. Finally, English patience has been exhausted, and the telegraph now informs us that a detachment of regular troops has been ordered by the British government to Abyssinia to compel the King of that country to release the British subjects who have been prisoners there a long time past. The English will have their hands full in this undertaking with the jealous and angered descendants of Solomon, and nothing less than the destruction of the prisoners may be expected.

The Legislature of Iowa will in accordance with the Constitutional provision submit the question of colored suffrage to the people of that State.

Who is He?—Some people may have a little curiosity to know who the Mr. Binckley is who is just now practically at the head of the U. S. Government at Washington. Fortunately his record is at hand and the value of his opinions as acting Attorney General may be entirely estimated. The Boston *Advertiser's* special says: Within ten years he has successively failed here as a portrait painter, the projector of a literary magazine, land office clerk, land officer, attorney, and defender of blockade runners, doctor, clerk in law office, "local" on the *Chronicle*, editor of the *Intelligencer*, squatter on abandoned rebel plantations in Virginia, editorial writer for a New York daily, the editor of which on receiving his first articles refused them and wrote to ascertain if the man was crazy. Last of all he turned up in Mr. Stanbury's office and took a seat in the cabinet on the day Mr. Stanton left.

Such is the man whom Mr. Stanbery presumes to allow to occupy his seat in the cabinet and to promulgate constructions of the constitution! It is said indeed that Mr. Stanbury prolongs his stay in Virginia Springs, so as to give this Binckley an opportunity to promulgate opinions of which he himself would be ashamed, but which are necessary to enable Mr. Johnson to carry out his purposes.

Prominent citizens from Baltimore state that great apprehension exists among the Unionists of that city in regard to the coming celebration of the anniversary of the battle of North Point, which is to take place in that city on the 8th inst. The militia of Maryland, since Swann's apostacy, is composed mostly of returned rebel soldiers. Their number is put down at 30,000 strong. Those regiments made up in Baltimore and adjacent counties are to take part in the coming celebration. So, also, are several independent regiments, composed mostly of colored men who served in the Union army during the rebellion. A conflict is anticipated. These Baltimoreans state that the rebel element in Maryland, and especially in Baltimore, is very great, and they mean mischief, if they can make it. They go so far as to express a willingness to obey a summons from Johnson to disperse Congress.

The New York *Freedman's Journal*, in a long editorial, pleads and raves in favor of usurpation by the President. Doubting only the courage, not the disposition of Mr. Johnson, that paper talks after this fashion:

> If Andrew Johnson was not a piteous coward, seeing the efforts of a Rump Congress, that he himself has denounced as bogus, trying to unseat him—if he was a man of capacity and courage, he *would disperse this Congress*, when it tries to meet again, without the Southern States being represented in it! He would tell them, "the Lord don't hem!
>
> He would, at once, summon the lawful voters of all the States, to assemble and elect representatives to an extraordinary Congress! He would see that not only Kentucky, but every State that complied with his extraordinary summons, and elected representatives, was represented in that new Congress. This would, of course, be abnormal, in this country at present.

A Minister in a Gambling Saloon.—Rev Mr. Cuyler has been to Hon. John Morrissey's gambling saloon in Saratoga. He excuses himself by saying that other ministers visited the place. He did not go to try his luck but gather sermon materials. He says a sumptuous table is provided for guests, and "the burly prize fighter" directs the hospitalities of the establishment with much courtesy. Brother Cuyler remarks the elegant appointments of the club, its well ordered management, the silent progress of the game, reminding him of play at Baden-Baden—it seems he has been there to—and the eminent respectability of the patrons of the bank. Yet he moralizes wholesomely on the vicious associations and practices of the saloon, goes away sighing for the exceeding sinfulness of sin, and writes all about it to the *Independent*

An Unwise Change.—Brown University is likely to begin the present year without a permanent head, but its friends have such confidence in the wisdom of its professors that they are not anxious about difficulties likely to arise from this source. The Providence *Journal*, however, is apprehensive of danger from another cause—that is from an effort now making to convert this institution into a purely sectarian college. It was founded by the union of the four denominations most prominent in Rhode Island when it was first started, and has ever since received their united support. To recede from being "the liberal and catholic institution" it was designated in its charter, would not only involve recreancy to implied good faith but would be to recede in liberality while all of our higher institutions of learning are more entirely becoming free from sectarian trammels."—*N. Y. Evening Post.*

Surratt.—Since the trial of Surratt his quarters in jail have been moved, and he now has has one of the rooms of the second story, fronting south, which he occupies in common with Henry Johnson, who is charged with the killing of Thomas Smoot. He is of late much improved in health. They are well fixed in this room, each having a cot on which they sleep, some books and papers, and when not reading, conversation is engaged in. Surratt alludes but seldom to the charge against him, but speaks of general topics. He seems to think much of his Zouave uniform, and wears it nearly al the time.

The Public Debt Statement.—The public debt statement for Sept. 1st will be ready on Thursday. It will show very material changes in several features of the debt, as the large cash balance in the Treasury have been freely used in paying currency interest and in redeeming compound interest notes. The statement will show the amount of the August issue of the latter, which are still outstanding. The Treasury has disbursed during August the large sum of $25,000,000 for the public service, mostly on account of the war and Interior Departments.

Court of Justices.—Tuesday, Sept. 3.—In the case State *vs.* Albert H. Manchester, for cruelty to a horse, the Court, after hearing arguments of counsel, reserved its decision.

State *vs.* Henry Palmer. This was an action for assault, Arthur R. Tuell, complainant. Defendant boarded a family, of dogs with the complainant, and Tuell having by some means got rid of two of the pups. Palmer essayed to recover possession of one which he saw with Tuell, using, meanwhile, threatening language and some physical force. Palmer was fined $1 and costs.

State *vs.* Arthur R. Tuell, for embezzlement and larceny. This was another phase of the dog case, wherein Tuell was charged with stealing a pup, the property of Palmer. There was no case made out against him, and he was discharged. Both parties had counsel and the cases were ably argued.

Meeting of the City Council.—The regular monthly meeting of the City Council was held last evening. The business was quite light, notwithstanding the session was protracted until 10 o'clock.

A resolution was passed authorizing the erection of a brick building on the site of the present Protection Engine Co. No. 5's house, said building to be used for houseing the new steam fire engine No. 2.

An ordinance increasing the pay of the police to $2 a day was passed, with some opposition, by the Board of Aldermen, but was killed after a lengthy and animated debate, in the other branch.

The quarterly reports of the several City Officers were read, received and properly disposed of.

In convention of the two Boards, Obed H. Gifford was elected on the Night Watch, *vice* William Matthewson, resigned.

The Children's Home.—Annual subscribers to the Children's Home are particularly requested to forward their subscriptions at an early period. The constantly increasing number of applications for the Home makes it important to provide increased accommodations as soon as possible, and assistance for this purpose is urgently requested.

Donations of money may be sent to Mrs. Wm. C. Cozzens, treasurer, or to any of the managers. Gifts of clothing, particularly of men's and boy's woollen clothing would be most thankfully received at No. 10 Green St.

Personal.—Among the arrivals at the Atlantic yesterday we notice Baron Gerol, the Prussian Minister, and daughter.

A. R. Rangabe, the Grecian minister, is among the guests at the Ocean House.

Clambake. The Glee Club have a clambake at Fort Walcott this afternoon. They deserve a good time and know how to secure it.

Brown University.—The exercises at the 99th Annual Commencement were of an interesting nature. Orations were delivered by Col. Higginson, and Hon. Wm. L. Stone, and a sermon before the Society for Missionary Inquiry was preached in the evening by Rev. Dr. J. B. Thomas of Brooklyn, N. Y. Prof. Chace of the University delivered an appropriate eulogium on Prof. Dunn who has so recently deceased and who was a great favorite in the institution.

No person was selected to fill the vacant presidential chair, and the duties of that office will for the present devolve on Prof. Chace who is well fitted for the position, and who will act as President *pro tempore.*

The University seems in the enjoyment of its accustomed prosperity and we trust will long continue an honor to the State by which it was established and sustained.

Base Ball.—We respectfully suggest that this matter of base ball playing is a little overdone. It may be a very interesting game to those engaged in it, but what does the public care about a game played between a set of youngsters in Maine or California that the particulars should be sent to all the newspapers in the land? We take up the morning paper and turn to the telegraphic department and read in flaming capitals: Latest News, &c., &c.: and find underneath the startling intelligence that nine boys in some locality or other have beaten nine other boys in this friendly game. Why not give to ladies a chance to report the results of games of croquet?

"Deadheads."—In answer to a lady correspondent who desires to know the meaning of the term "deadhead," an exchange says: "The free tickets given to the press for the uses named are always paid for, and very liberally. As a rule, those who issue not those who receive—these free tickets—are 'deadheads,' usually giving fifty cents for that which a five dollar bill would not adequately pay for. So long as the newspaper editor is expected to give liberal notices of entertainments before they occur, and then follow these with a general puff after the show is over, he certainly has no place in the 'deadhead' classification. Indeed, in nine cases out of ten the editors would be glad to receive half pay for their work and pay two prices for the free ticket. They certainly would make money by the operation. We may add a few words on the general subject of advertising. The publication of advertisements is as much in the business of a newspaper as the publication of the news, and an editorial notice is designed to supply the place of or add value to a regular advertisment. Yet there are those who ask just such gratuitous notices and this almost as a matter of right. If these same persons should be asked to make a present of a dozen yards of muslin to each purchaser of a merino dress, or a dollar's worth of sugar to whoever bought three pounds of tea, or half a dozen free tickets to whoever engaged twenty seats at a concert they would resent the demand as an insult. Yet why should not their wages be given away as freely as should and are the products of the editor's and publisher's labor and capital? The merchant makes his profits and living by selling his goods. The publisher of a newspaper makes his by selling his advertising columns, not by giving them away, and when he does thus give them in aid of a public library or other beneficent object, he deserves thanks as a public benefactor, and not insults as a 'deadhead.'"

News Miscellany.

Confederate Bonds are not quite worthless after all. A man in Washington advertises for them "in moderate amounts" and says he will buy all that are offered at the best rates.

The friends of license are in high hopes of carrying the good old state of Massachusetts at the next election. They have a secret organization in nearly every town and will use money freely. To make success doubly sure, it is said they will put only Republicans in nomination for office. On the other hand, such men as Hon. Henry Wilson, Dr. Loring and Rev. Mr. Miner will stump the commonwealth for prohibition From present appearances, this will be the only issue before the people.

Gen. Hancock, in his testimony before the Indian Commissioner, is very decided in his opinion that a serious war exists, and even declares his belief that, if the troops were withdrawn, not a white man would remain in Colorado, and the great highways to the Pacific would be closed. The Indians, he says, are amply provided with the best modern weapons, even making use of field-glasses. He places the number of hostile Indians engaged between the Arkansas and the Platte at 1,500 or 2,000.

Gen. Pope magnifies his office, we think, a little too much when he attempts to control the tone of all the newspapers in his District. Some of his acts look a little too despotic for a free country, in time of peace.

European advices are more pacific. There will probably be no war among the continentals, at present.

The excitement in Washington is dying out. Cabinet changes have ceased to be talked about. The only difficulty now seems to be between President Johnson and Gen. Grant.

Vermont gave a majority for the Republicans at the State election yesterday.

It is reported that Hancock has thirty days delay on account of the fever which is raging beyond precedent in New Orleans. It is an epidemic in Galveston, Indianola, and other Texan Gulf ports. There were 809 cases in one day in Galveston last week, one-fifth of which were fatal.

The report is confirmed that all Northerners who settled there are either dead, sick or fleeing north.

The Public Debt statement will be ready by Thursday. It will show large balances have been used to pay currency interest and to redeem compound interest notes. During the month of August twenty-five million was disbursed for public service, mainly in the War and Interior Department.

Three educated colored men, Howard Day, C. E. Yancey, and J. H. Graham leave for Mississippi on a political tour this week, sent by the congressional committee.

The *Herald's* special states that the following plan has been perfected by Senator Cameron, on a visit to Washington, this week. Cameron to resign, Gov. Geary to appoint Stanton as Cameron's successor, Wade to resign the Presidency of the Senate, Stanton to succeed him, the President to be impeached and deposed and Stanton made President. Wade then to be re-elected President of the Senate and Cameron reappointed.

The *World's* says it is understood that Seward proposes the purchase of the Sandwich Islands, British Columbia, the Bay of Samana and a port or island in the Mediterranean.

The *Tribune's* special says the President is determined to remove Howard as soon as he can find a successor. It also announces he will surely remove Pope.

Mr. Binkley is engaged preparing charges against Sheridan and Pope, similar to those against Sickles.

Prominent Baltimoreans anticipate a conflict on the 8th instant, that day being the celebration of the battle of North Point, as regiments of militia composed of ex-rebels and several colored regiments will parade.

Gen. Shanks leaves soon on a southern tour for information relative to the treatment of Union prisoners during the war.

Sheridan's last act was the removal of the sheriff of St. Tammany Parish for making incorrect returns, and the appointment of Charles E. Stephens.

Hon. J. A. McDougal, U. S. senator from California, died at Albany on Tuesday. He was well known as one of the leading men of the golden states.

Runaway Accident.—As Mr. James H. Allen, of Providence, with his wife, were returning from the Fair at Narragansett Park, in their carriage, they rode across the railroad track near the Print Works and their horse was frightened by the locomotive whistle and ran against a building, throwing them both out, cutting and bruising them badly. Mrs. Allen was taken into a dwelling near by, bleeding profusely from severe cuts upon her head and face. Mr. Allen was not so badly bruised, and was able to assist Mrs. Allen.

"Let our laws and our institutions speak not of white men, not of red men, not of black men, not of men of any complexion; but like the laws of God—the Ten Commandments and the Lord's Prayer—let them speak of the people."—*Horace Maynard.*

After the disaster to the little yacht John T. Ford, reported by a cable dispatch yesterday, we hope to hear no more of foolhardy voyages across the Atlantic in tubs and cockle shells. There is no true bravery in tempting Providence, and no glory in succeeding in an adventure which is simply rash without being useful to any human creature.

Lowell Mason, the distinguished musical composer, and his wife, expect to celebrate their golden wedding next week at their summer residence, South Orange N. J., and Mr. and Mrs. E. M. Phillips of Westborough who stood up with them when they were married, have been invited to be present.

The New Orleans Republican, which a few weeks ago used to denounce Sheridan savagely, now upholds him and regrets his removal.

The present Duke of Wellington is printing the whole of his father's papers; for safety not for publication. Three copies only of the original impression are taken.

A good story is told of a Glasgow merchant, who on his death bed sent for a clergyman of the Scotch Free Church. Having some fears regarding his future prospects, he asked the reverend gentleman, "Do you think, if I were to leave £10,000 to the Free Kirk, my soul would be saved?" "Well," answered the cautious minister, "I couldn't just promise you that, but I think it is an experiment worth trying."

In Jest.

A big thing on ice—Russian America.

Why do ladies like to visit the seacoast? Because it relates to marry time.

When we hear certain people called "codfish aristocracy," we think it rather rough on the fish.

"What ever made you marry that old woman?" said a mother to her son. "Because you always told me to pick a wife like my mother," was the dutiful reply.

Recently, while a young married lady was giving her liege lord a hearty scold, another lady remarked that "Mrs. ——— was evidently suffering with a severe attack of inflamation of disposition." That's a new name for an old and very common disease.

A pauper recently died in a New Hampshire poor house, the superintendant of which suggested to an old room-mate of deceased that he should dig the grave. This the old fellow stoutly refused to do, saying: Hang the lazy old critter, he's been loafing about here all the spring, why didn't he dig his grave then if he wanted one dug!"

A Noble Response.—Too much praise cannot be given to the noble response with which the Washington Library Company of Philadelphia are meeting in their patriotic endeavors to raise the required funds for the endowment of the Riverside Institute, a home for the gratuitous education of soldiers' and sailors' orphans. The plan adopted by the company has been subject to careful deliberation, and has received the endorsement of eminent legal authority. The trustees selected to disburse the money thus raised are well-known citizens of Pennsylvania and New Jersey, and their names should be a sufficient guarantee to those who would aid in rearing one of the noblest charities that ever thrust itself before the people. Every subscriber to the stock, which costs but one dollar per share, not only receives a fine steel-plate engraving, worth at retail fifty per cent. more than what is paid for the stock, but is also guaranteed some present in the great distribution of the $300,000 worth of presents which are to be awarded to the stockholders.—The three largest presents are worth $40,000. Each shareholder has an equal chance to obtain one of the largest presents. Every one will obtain some present and a beautiful engraving. Read advertisement.

In looking over the extensive House Furnishing Emporium of B. P. Cunningham, Esq., a few days since, we were surprised at the immense amount of business being transacted, and the extensive preparations being made for the Fall trade. There are no less than one thousand rolls of Carpeting to arrive during the month of September, many of them excelling in style and beauty, (by samples shown), anything we have ever seen. We learned also that there are one hundred and fifty carloads of Furniture now being manufactured for shipment at this great Bazar, and as much more being made, under the eye of the proprietor, at his own house. This added to his present stock of Stoves, Mattresses, Black Walnut, Chestnut and Painted Chamber Setts, Stuffed Furniture, &c., and the stock will exceed anything of the kind in New England. We wish the proprietor success.

Taking Medicine to cure diseases occasioned by a deficiency of *Iron in the Blood*, without restoring it to the system, is like trying to repair a building when the foundation is gone. The Peruvian Syrup (a protoxide of iron) supplies this deficiency and builds up an iron constitution.

A Startling Truth!—Thousands die annually from neglected coughs and colds, which soon ripen into consumption, or other equally fatal diseases of the lungs; when by the timely use of a single bottle of Wistar's Balsam of Wild Cherry their lives could be preserved to a green old age.

Lotus Balm for the Hair, prepared by Caswell, Hazard & Co., of this city, is one of the best hair-dressing articles in use.

Speer's Sambuci Wine is the great medicinal wine, the best blood purifier and tonic, and is so esteemed by the medical faculty.

Jones and Robert Dessert export their fine old London Dock Gin, and it is bottled in America by C. A. Richards & Co., who are their sole Agents. It is the very best article of Gin to be obtained, and is sold by all grocers and druggists.

WISTAR'S BALSAM OF WILD CHERRY.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long-standing cases of Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Croup, Asthma, Inflammation of the Lungs; while even Consumption itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

UNSOLICITED TESTIMONY.

From Andrew Archer, Esq., of Fairfield, Me.

"About eight years since, my son, Henry A. Archer, now Postmaster at Fairfield, Somerset County, Me., was attacked with spitting of blood, cough, weakness of lungs, and general debility, so much so that our family physician declared him to have a 'Seated Consumption.' He was under medical treatment for a number of months, but received no benefit from it. At length, from the solicitation of himself and others, I was induced to purchase one bottle of WISTAR'S BALSAM OF WILD CHERRY, which benefited him so much I obtained another bottle, which in a short time restored him to his usual state of health. I think I can safely recommend this remedy to others in like condition, for it is, I think, all it purports to be—the Great Lung Remedy for the Times!"

The above statement, gentlemen, is my voluntary offering to you in favor of your Balsam, and is at your disposal."

Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

NOTICE,

NEWPORT, Sept. 2d.

THIS is to certify that I, Mrs. FANNIE F. GETCHELL, have been sick for years with lung difficulty. I was very frail, and the doctors had given me up to die, saying there was no help for me. I heard of Mrs. HOYT, and I still clinging to life, I tried her remedies, and found to my relief that there was yet health and strength for me. I followed her directions in taking her medicines, and am happy to-day to be able to say that I am a well woman.

Mrs. Hoyt is a clear-sighted Clairvoyant. She is capable of doctoring all kinds of disease the flesh is heir to, has had several years experience and her skill is indeed wonderful. All who are afflicted by the heavy hand of disease, will do well to give her a call.

Any statement that may be called for concerning her mode of treatment, I am ready to make. I have travelled with her six years and shall feel grateful to all who may converse with me on this subject.

NOT GOLD ONLY,
BUT
RICH, FRUITY, LUSCIOUS,
WINES!

California is making grand strides in her agricultural products, and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She sends a warning voice to the time-worn vineyards of Europe, and enters the list as a fresh young competitor for the production of wines from her own rich and increasing vineyards. The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA,

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of of equal quality. We bottle five kinds. They are—

"Angelica,"
"MUSCATEL,"
"STILL CHAMPAGNE,"
"HOCK," and
"PORT,"
ALSO "CALIFORNIA BRANDY."

They are all perfectly pure, and may be relied upon in sickness or in health. The Angelica and Muscatel are rich sweet wines. The Hock is fully equal to the medium grades of Rhine wines. The Port is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a Thousand Cases, and are ready at any time to exhibit samples, or to send them to any address.

MAJOR-GENERAL HOWARD.

PROVIDENCE, R. I., Sept. 3, 1867.

Major-Gen. Howard, now visiting the agricultural fair in this city, received a dispatch from Gen. Grant this evening, informing him that he is to retain his position at the head of the Freedmen's Bureau.

FROM WASHINGTON.

WASHINGTON, Sept. 3.

The Cabinet to-day had a protracted session. Gen. Grant did not attend, having determined to be present only when military matters are under discussion. The Cabinet, however, spent most of its time on the Amnesty Proclamation. It was decided to issue one, the details to be left for future decision. The President is inclined to make it universal, but some of the members object.

Gen. Slocum, of New York, was freely talked of to-day among the friends of the President for the position of Secretary of War.

It is understood that the subject of the amnesty proclamation was under consideration by the Cabinet to-day. There are indications that it will be issued this week.

Gen. Grant, a few days ago, requested the President to excuse him from attending the meetings of the Cabinet, except when military affairs were to be discussed. He was not present at the meeting to-day.

Official letters from Farragut, give a modest account of the kind of reception at Cronstadt, of himself and fleet.

Rear Admiral Davis, arrived at Rio, July 26th, relieving Admiral Godden. Our squadron at Rio, took a prominent part in reception of Prince Alfred, at Rio.

FOREIGN NEWS.

LONDON, September 3.

A dispatch from Athens says advices have been received from the Island of Candia to the effect that the fighting there has been suspended there for the present, an armistice having been agreed upon between the Turks and Cretans.

CONSTANTINOPLE, Sept 2.—A mixed board of inquiry, composed of both Ottoman and Christian members, has been appointed by the Sublime Porte, and will soon leave for Candia to investigate the cause of the discontent in that Island, and obtain from the inhabitants statements of their grievances. They will make report to the government here, and upon the result of their labors, future reforms in the government of that island will be based.

TWO FIREMEN KILLED ON THE NEWARK RAILROAD.

NEWARK, N. J., Sept. 3.—Two men were picked up this side of Rahway, on the New Jersey Railroad, by the first out train at an early hour this morning, mangled fearfully. It is supposed that they were run over by the one o'clock peach train.—The bodies were identified as those of Albert Baker and Wm. Stagg, of Rahway, who had been on a firemen's parade yesterday.

ANOTHER GREAT FIRE IN THE OIL REGIONS.

PETROLEUM CENTRE, Pa., Sept 3.—A destructive fire occured last night on Boyd Farm, the terminus of Oil Creek Railroad, destroying the oil and shipping yard of D. Brown & Sons, Catz & Co., Cook & Co., Tibbets & Gilbert, and also twenty cars consisting of passenger's track and tank cars owned by the Oil Creek road and Empire line. The estimated loss is $75,000 which is partially covered by insurance.

SECURE A POLICY —IN THE— NORTH AMERICA LIFE INS. CO.,

I. Because it gives more Liberal Policies, than any other Company. They are all non-forfeiting and incontestible. It insures **Officers of the Army and Navy,** in times of peace, at the usual rates, with no increased risks in event of hostilities. It makes no extra charge on change of occupation, nor for **TRAVEL or RESIDENCE, at any season of the year,** in the United States or Europe.

NEARLY A WORLD-WIDE POLICY.

It allows thirty days grace, on renewal payments and grants *weekly compensation* to those injured by public travel.

II. It is Most Secure.

It makes special deposits in the Insurance Department of the State of New York, for which the State guarantees the payment of its Policies, in case the Company should at any time fail to meet its obligation. No other Company gives the assured such security, or anything equivalent thereto. **That is Best which is Most Secure.**

III. It is most economical. Its ratio of claims and expenses, last year, was less than that of any other Company in the United States, which had been in operation a full year. Thus leaving in the hands of the Policy Holders the largest proportional sum for dividends.

A LARGE Stock of Ladies' Serge Congress, Polish and Button Gaiters, ranging in price from $1.75 to $4.25. At J. M. SWAN'S.

THE UNION PACIFIC RAILROAD CO.

Are now constructing a Railroad from
OMAHA, NEBRASKA,
Westward toward the Pacific Ocean, making with its connections an unbroken line
Across the Continent.
The Company now offers a limited amount of their

First Mortgage Bonds

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the city of New York, at the rate of

Six Per Cent. in Gold,
Ninety Cents on the Dollar.

This road is already completed to [illegible], 376 miles west of Omaha, and is fully equipped, and trains are regularly running over it. The Company has now on hand [illegible] the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is [illegible] September of this year, and it is expected [illegible] the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1565 miles, the United States Government issues its [illegible] Bonds to the Company as the road is finished, at the average rate of about $28,250 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,800 acres of land to the mile, [illegible] estimated to be worth [illegible], making the total resources, exclusive of the capital, [illegible]; but the full value of the lands cannot now be realized.

The authorized Capital Stock of the Company is one hundred million dollars, of which [illegible] have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were [illegible]. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific is immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended;—on 335 miles of this road the cars are now running, and the remaining 182 miles are nearly completed.

At the present rate of premium on gold these bonds pay an annual interest on the present cost of

Nine Per Cent.,

and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the meat to bake or roast perfectly and evenly, a great desideratum with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top, and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless Stove." For sale in Newport,
